2500 mm	1800mm	600mm
	2400mm	800mm

LONG SPAN SHELVING

Erect-A-Rack's long span shelving is very popular with businesses that have light loads and are looking for easy-to-install shelving solutions.

Its benefits include:

- ✓ Easily incorporated into Pallet Racking and Raised Storage Systems or use separately.
- ✓ Versatile system offering many accessories and storage display options. Sturdy and efficient storage system for archive boxes, hardware products and apparel amongst others.
- ✓ It is designed to support 4000kgs per bay and 450kgs per shelf level UDL.
- ✓ Commonly supplied with 18mm thick particle board recessed into the beams (customers can choose steel and wire shelves as an alternative enabling the versatility for each solution and its requirements).
- ✓ Long span shelving can easily be converted in raised storage areas for high density storage and large scale order picking systems.
